Micronaut Framework Trademark Policy

This is a statement of the Micronaut® trademarks owned by Object Computing, Inc. and its policy and guidelines relating to use of the trademarks.

The Micronaut trademarks comprise the word "Micronaut," each Micronaut logo identified within this document, and other related marks adopted by Object Computing, Inc. (referred to in this policy collectively as the "trademarks" or the "Micronaut trademarks").

The purpose of this policy is to ensure that Micronaut trademarks continue to function as a symbol of quality and origin. While the Micronaut framework is made available under an open source software license, the open source software license does not include a right to use the Micronaut trademarks. Use of the Micronaut trademarks is restricted and subject to the policies set forth in this statement and conditioned upon conforming to other requirements that are directly related to the qualities that the specific mark has been created to preserve.

Any use of or reference to the Micronaut trademarks inconsistent with this policy, or use of marks that are confusingly similar to the Micronaut trademarks, is prohibited. All uses of the Micronaut trademarks and all goodwill associated therewith will inure solely to the benefit of Object Computing, Inc.

USE OF MICRONAUT LOGOS

Use of the Micronaut logos is prohibited without the prior written consent and express license of the Micronaut brand team. If you are authorized to use a Micronaut logo, you must comply with the requirements set forth in this document.

USE OF THE WORD MICRONAUT®

Use of the word "Micronaut" is permitted for certain, limited purposes. These purposes include:

- To identify the origin of the software that you are providing, i.e., that the code you are distributing is a modified version of our software or built on our platform/framework. You may say, for example, "this software is built on the Micronaut® framework."

- To describe the relationship between your software and the Micronaut framework.

- In association with hardware devices, on the following conditions:

  - The software installed on the device is modified only so far as necessary to operate on the hardware platforms

  - The essential functions of the software are unchanged

  - You do not suggest that Micronaut software is the source of the hardware device itself, but rather that the Micronaut software is incorporated into the device.

The following rules apply to use of the word "Micronaut":

- Do not use the word Micronaut as a verb or a noun. It should be used only as an adjective followed by a noun (e.g., the Micronaut® framework).

- Do not use the word Micronaut in the plural or possessive form.

- The word Micronaut should not be altered or amended in any way. It should not be combined with any other mark, hyphenated, abbreviated, or displayed in parts.

- The word Micronaut may not be used as part of your domain name, product name, or company name, or incorporated into your logo or design.

- The word Micronaut in paragraph text should always be printed with the "M" capitalized and the remainder of the name in lowercase. In headings, the word may be printed in all caps.

- The first use of the word "Micronaut" in running text should always be followed by the registered trademark symbol (®).

When using the word Micronaut, we ask that you prominently disclose the following trademark notice: "Micronaut® is a registered trademark of Object Computing, Inc. Use is for referential purposes and does not imply any endorsement or affiliation with any third-party product. Unauthorized use is strictly prohibited."
IMPORTANT NOTE

The Micronaut trademarks have been created and their use is expressly permitted for a specific purpose. Do not use the Micronaut logos or the word Micronaut in any commercial or marketing context other than as expressly permitted in this policy unless you have obtained express written permission from Object Computing, Inc.

Nothing in this policy statement may be interpreted to allow any third party to claim any association with the Micronaut framework, Object Computing, Inc., or any of their projects, or to imply any approval or support by Object Computing, Inc. for any third-party products or services.

This policy statement is subject to change at any time at the discretion of Object Computing, Inc.

FOUNDATION

Brand Guidelines

The word Micronaut and various Micronaut logos, trade dress, images, designs, and other trademarks (collectively, "Trademarks") are proprietary assets owned by Object Computing, Inc. and are registered trademarks in various jurisdictions.

The following guidelines outline how and where you may use Micronaut Trademarks in print and digital assets.

Micronaut Trademarks may be used only in accordance with these directives and with the written permission of the Micronaut brand team. All other use is prohibited.

Please email contracts@micronaut.io for more information or to request authorization.

The Micronaut Logo

The Micronaut logo consists of the **logo mark** (swirl plus the Greek symbol for "micro" [μ]) and the **word mark** ("Micronaut" in all caps with the "naut" section of the text a lighter font weight than the "Micro" section), followed by the registered trademark symbol (®). Never display the Micronaut logo without the registered trademark symbol.
Horizontal and stacked versions of the logo are available for placement in different layouts.

The logo mark may be used alone, but only if the word Micronaut and registered trademark symbol are prominently visible in accompanying text.

The Micronaut word mark should never be used alone without the logo mark.

Logo Variations

Certain additional entities and products incorporate elements of the Micronaut logo into their logos. These include (but are not limited to) Micronaut Data, Micronaut Launch, the Micronaut Foundation, and Micronaut Microcasts.

Unless otherwise indicated, all guidelines outlined in this document apply to the logo mark, the Micronaut word mark, the Micronaut Data logo, the Micronaut Launch logo, the Micronaut Foundation logo, the Micronaut Microcast logo, and any other Trademark within the Micronaut brand family, even if all versions are not referenced in a given example.

Sally the Astronaut

## Sally the astronaut is the Micronaut® framework's mascot.

Sally may be used only if the word "Micronaut" and registered trademark symbol are prominently visible in accompanying text.

All guidelines that apply to Micronaut logos also apply to Sally the astronaut. No changes should be made to Sally the astronaut without prior approval from the Micronaut brand team.

Color Palette

Micronaut logos may be displayed in black (#000000) and white (#ffffff).

Use the black logo on solid white and light-colored backgrounds.

For solid black and dark-colored backgrounds, use the white logo, unless the background color is light enough that the white logo becomes washed out.

Do not display the logo in any color other than black or white.

Do not display the logo in more than one color.

Do not place the logo on a red background.

Do not place the logo on a four-color photograph or other multicolored background.

Clear Space

The Micronaut logo should be given optimal staging in layouts. Minimum clear space is equal to the height of the M in Micronaut.

Never use less than the minimum clear space. Clear space is always relative to the size of the logo.

Minimum Size

The Micronaut logo should always be large enough to ensure legibility.

Minimum-size requirements are in place to ensure readability at reduced sizes.

FOR DIGITAL DISPLAY

The combined logo mark plus word mark must be a minimum of 300 pixels in width for the horizontal version.

In the stacked version, the word mark must be a minimum of 200 pixels in width.

When using the logo mark alone, the logo must be a minimum of 75 pixels in width.

IN PRINTED MATERIALS

The combined logo mark plus word mark must be a minimum of 2.5 inches (6.35 cm) in width for the horizontal version.

In the stacked version, the word mark must be a minimum of 1.25 inches (3.175 cm) in width.

When using the logo mark alone, the logo must be a minimum of 1 inch (2.54 cm) in width.

Unacceptable Usage

Design and usage standards ensure that the Micronaut logo brand identity is instantly recognizable however and wherever it is used. The word and logo mark are to be used exactly as designed unless written permission has been granted to alter them.

Please follow brand guidelines carefully and avoid unauthorized variations such as those displayed here.

Do not change the capitalization or the font.

Do not remove the μ
symbol from the center.

Always maintain the logo's
original aspect ratio; do not
stretch the logo in any
direction.

Do not change the
number of dots.

Never add additional text to the
Micronaut logo that is not part
of the original asset.

Never combine the Micronaut
logo with another product logo.

Versions of the logo have been produced in which the font weight is consistent. These specific versions may be used only in this approved format; they should not be altered in any way.

Notices

Authorized use of a Micronaut Trademark should include prominent disclosure of the following trademark notice.

"Micronaut® is a registered trademark of Object Computing, Inc. Use is for referential purposes and does not imply any endorsement or affiliation with any third-party product. Unauthorized use is strictly prohibited."

Summary

The Micronaut word mark, Micronaut logo mark, Micronaut Data logo, Micronaut Launch logo, Micronaut Foundation logo, Micronaut Microcast logo, Sally the astronaut, and any other graphic representations of Micronaut-related products and entities are proprietary assets owned by Object Computing, Inc.

Use of these assets by third parties in product documentation, marketing materials, and all other print and digital communications is prohibited without express written authorization from the Micronaut brand team.

Third parties expressly authorized to use Micronaut Trademarks may not alter or modify them, except as expressly outlined in this document. Any violations of the requirements in this document may be grounds for terminating any authorization granted by the Micronaut brand team. Authorization may be granted with additional restrictions not referenced here; individual authorization documentation takes precedence over information presented in this document.
